Ménages et familles:
No. HF-2

This bulletin gives preliminary figures from the 1941 Census on value of home and monthly rent paid for the "greater" cities of Halifax, Hamilton, London, Montreal, Ottawa, Quebec, Saint John, Toronto, Vancouver, Victoria, Windsor and Winnipeg.

Definition of "Greater" City.- For Census purposes the "greater" city constitutes the city proper plus those satellite communities outside the city boundary which are in close economic and geographical relationship to it. The "greater" city is sometimes referred to as the "metropolitan area". Some of the larger cities, e.g., Calgary and Edmonton, have no communities of this kind outside the boundaries of the city proper. The table⁽¹⁾ below shows the areas and the population included in the "greater" cities.

Definition of Owned and Rented Homes.- Owned homes include those not fully paid for at the Census date. Rented homes include a few where no actual cash rent was paid, such as households of janitors, employees, etc.

Definition of Value or Rent.- Households living in owned homes are classified according to value of home in Tables 1 and 2, while those living in rented homes are shown by monthly rent paid in Tables 3 and 4. Value of home reported in the Census was the estimated current value of the home, while the rent recorded for tenants was the rent paid for the month of May, 1941.

Definition of Household.- In the Census a household is defined as "a person or a group of persons living in one housekeeping community. The persons may or may not be related by ties of kinship, but if they live together with common housekeeping arrangements, they constitute a household. It should be noted that two or more households may occupy the same dwelling. If they occupy separate portions of the dwelling and their housekeeping is entirely separate they shall be treated as separate households."

Ce bulletin donne les chiffres préliminaires du Recensement de 1941 sur la valeur de la maison et le loyer mensuel dans les "grandes" villes de Halifax, Hamilton, London, Montréal, Ottawa, Québec, Saint John, Toronto, Vancouver, Victoria, Windsor et Winnipeg.

Définition de "grande" ville.- Pour les fins du recensement, la "grande" ville comprend la ville proprement dite et ses communautés satellites situées hors des limites de la ville et avec lesquelles elle est en étroite relation économique ou géographique. La "grande" ville est parfois appelée "zone métropolitaine". Certaines grandes villes, comme Calgary et Edmonton, ne possèdent pas de communautés de ce genre hors des limites de la ville proprement dite. Le tableau⁽¹⁾ ci-dessous indique les zones et la population comprise dans les "grandes" villes.

Définition de maisons occupées par leur propriétaire et de maisons louées.- Les maisons occupées par leur propriétaire comprennent celles qui n'étaient pas payées en entier à la date du recensement. Les maisons louées comprennent quelques maisons dont le loyer n'est pas payé en espèces, telles que les maisons occupées par les concierges, les employés, etc.

Définition de valeur ou loyer.- Les ménages qui occupent leur propre maison sont classifiés selon la valeur de la maison, dans les tableaux 1 et 2; tandis que ceux qui habitent des maisons louées sont classifiés selon le loyer mensuel, dans les tableaux 3 et 4. La valeur de la maison, aux termes du recensement, est la valeur marchande estimative de cette maison, tandis que le loyer inscrit pour les locataires est le loyer payé pour le mois de mai 1941.

Définition d'un ménage.- Pour les fins du recensement, un ménage est "une personne ou un groupe de personnes vivant en commun dans un logement unique. Les personnes peuvent être ou non apparentées; mais si elles vivent ensemble dans des conditions de vie commune, elles constituent un seul ménage. Il faut remarquer que deux ou plusieurs ménages peuvent habiter un même logement. S'ils occupent des parties séparées du logement, et que leur unité ménagère est entièrement séparée, ils sont considérés comme des ménages distincts."
